

We have an exciting story to share with the Hat Creek Grown family!

We have formed a partnership with Loren and Lisa Poncia, fourth-generation owners of Stemple Creek Ranch in Marin County, California. This collaboration comes at a great time for us as we look to simplify our lives while continuing to raise the best cattle possible. We have been working successfully with the Poncias for several years, and in that time we have developed a relationship based on mutual respect.

Loren and Lisa run their business with the same values we embrace at Hat Creek Grown. They manage their own ranch and animals with the utmost attention to what is best for the land, best for the animals, best for the environment, and best for the people eating the bounty of their work.

Stemple Creek Ranch is a premium brand with pastures and cattle throughout northern California. They sell to locally-owned grocery stores, just like Orchard Nutrition Center, butcher shops, and restaurants as well as direct to consumers on their own website store at www.stemplecreek.com.

Going forward, we are pleased to announce that all of our products will be sold through the Stemple Creek Ranch label. As soon as we are out of inventory, you will see a complete conversion. In the meantime, you can enjoy our 100% grassfed beef under both labels.

Please enjoy the beef with their label as you have ours for many years. We still will be raising the cattle for their beef label, just like we have done for our own label, Hat Creek Grown.

Thank you so much for your support of our family business!
